2016 Volume 1

#GIVING TUESDAY™

On December 1, Bethany launched the agency's first #GivingTuesday campaign. Founded in 2012, Giving Tuesday is a global giving campaign observed on the Tuesday following Thanksgiving and the widely recognized shopping events of Black Friday, Small Business Saturday, and Cyber Monday. Giving Tuesday is the day to give back after "getting" so much food, family time, and super deals at the stores.

In preparation for Giving Tuesday, Bethany enlisted the help of 35 "ambassadors," people who regularly interact with our social media or who are agency stakeholders. Each ambassador received a toolkit with ready-to-use posts, tweets, images, and links to the agency's online donation page. A donor offered to match gifts to help inspire giving, the volunteer ambassadors made the magic happen and spread the word to their friends and families about our good work in the community, and Bethany received over \$4,000 in gifts!

The individuals who gave to Bethany joined almost 700,000 people who raised or donated \$116.7 million dollars for charitable causes around the world on this single day of giving.

Bethany extends sincere thanks to everyone who supported the agency's campaign with their time, effort, and dollars. By supporting Bethany for Children & Families, donors and volunteers help Bethany achieve its mission of keeping children safe, strengthening families, and building healthy communities.

Program Spotlight

Prevention Education

Bethany offers an array of education services taught by skilled educators to youth, parents, and the community. These programs are designed to teach self-esteem, strengthen communication skills, and develop responsible decision-making skills in an effort to prevent or reduce risky behaviors and to meet the many challenges that youth face today.

Utilizing evidence-based, medically accurate information, Bethany educators work with local schools to meet with junior high and high school students on a regular or as-requested basis to discuss a range of topics, including:

- Self-Esteem & Peer Pressure
- Communication & Refusal Skills
- Decision-Making
- Internet Safety
- Sexuality & Sexual Identity
- Pregnancy & Sexual Safety
- Consequences of Early Sexual Activity

Bethany's implementation of Wise Guys, an evidence-based education program designed to teach adolescent males about teen pregnancy prevention, has been so successful that it has achieved national attention.

Bethany's Prevention Education reaches thousands of students throughout the Quad Cities every year, and the programs provide these students with vital information that helps them make smart and healthy decisions as they transition into adulthood.

Quincy Davis, Program Coordinator for Wise Guys, talks to young men about male responsibility and good decision-making skills.
