National Children’s Dental Health Month

Bethany is a proud supporter of National Children’s Dental Health Month. The month-long observance that takes place in February brings together thousands of dedicated dental professionals, healthcare providers, and educators to promote the benefits of good oral health to children, their caregivers, teachers, parents, and many others.

Bethany understands the importance of good oral health care. In addition to dental care provided on the mobile dental clinic, the program educates children on the importance of brushing and flossing, and provides each child with a toothbrush, toothpaste, dental floss, and educational materials.

Did you know that Bethany's Give Kids a Smile mobile dental program serves nearly 3,500 children at 129 schools in the Quad Cities region? Children who qualify for the program receive dental cleanings, examinations, fluoride treatments, and sealants. If necessary, follow-up care for fillings, extractions, and root canals is available through Bethany’s network of dental care providers throughout the Quad Cities.
Warm Beds for the Holidays

On December 12, 2018, Slumberland Furniture Stores of Davenport and Moline donated 38 brand new twin-size mattress sets to Bethany for Children & Families. The donation is part of Slumberland Furniture’s annual Making Homes for the Holidays program. This is the 10th year that Slumberland has donated beds to Bethany. Besides the new mattress, clients also received a box spring and frame.

Bill Steinhauser, President and CEO for Bethany for Children & Families, said, “This generous donation from Slumberland Furniture ensures that 38 people in the Quad City area have comfortable beds this holiday season. The Making Homes for the Holidays program is a generous and kind way of helping individuals in need — by making sure they are able to have a warm and restful night’s sleep, affecting life at home, school, work, and in the community.”

Program Spotlight—Phoenix

The Bethany Black-Hawk Phoenix Day Treatment Program offers special education services, case management services, and interventions to area youth who are at risk of disrupting from their homes of origin and being placed in a residential setting. Treatment is based on each student’s individualized educational plan (IEP). The Phoenix Day Treatment Program assists students between the ages of 11 and 22 who have demonstrated severe behavioral and emotional problems and who have been unsuccessful in their home school districts. The program run by Bethany for Children & Families and the Black Hawk Area Special Education District (BHASED).

Bethany for Children & Families provides extensive individual and family counseling to participants of the Phoenix Program. Family counseling can take place in the home and outside of traditional school hours, if necessary. The Phoenix Program also maintains a strong emphasis on case coordination through maintenance of relationships with mental health systems, private agencies, DCFS, court, probation, and parole.

The Phoenix Program successfully maintains over 90% of placed students in their homes and in the local community. Through a combination of specialized educational services and extensive counseling and therapeutic supports, the graduation rate for freshman is 85% after four to five years, well above the usual graduation rate of 40% to 50% cited by research of behavior day treatment programs. A core special education curriculum of academics adjusted to individual student needs as well as a strong emphasis on social skills training is presented by dedicated and skilled special education teachers, paraprofessionals, and the social work/counseling staff.
On December 11, students of the Bethany Black-Hawk Phoenix Day Treatment Program participated in Shop with a Cop for the first time ever! The Rock Island County Sheriff’s Department raises money every year for its annual Cops and Kids Christmas program and invited four Phoenix kids to come along this year.

On the day of the event, local law enforcement get paired with a child and get to shop for the family. Shop with a Cop provides a fun-filled day for children while creating positive relationships with law enforcement.

It was a great experience for the students, and they loved picking out gifts for their families! A big thank you to the Rock Island County Sheriff's Office for inviting our kids!
